CTSC

CERTIFIED IN TRANSFORMATION FOR SUPPLY CHAIN

The APICS Certified in Transformation for Supply Chain (CTSC) equips supply chain professionals responsible for driving transformation with a collected group of best practices, knowledge and skills to initiate and enact supply chain transformation.

APICS CTSC credential holders gain the skills to effectively manage global supply chain transformation activities that involve their extended enterprise, including the web of suppliers, manufacturers, distributors, retailers and transportation carriers. CTSC serves the needs of both professionals and employers by keeping you and your organization competitive in today's ever-changing environment.

Why should I earn the CTSC?

To be successful, supply chain professionals need to become transformational leaders who are system thinkers, digitally fluent, and adept at using new generations of tools in all types of supply chains – forward, reverse and circular.

The CTSC recognizes those individuals with highly sought-after transformation skills and enables them to gain a competitive advantage by demonstrating their understanding of supply chain transformation strategies, processes, tools and technologies applied to managing the end-to-end supply chain transformation.

After earning your CTSC, you will be able to:

- Develop, deploy and manage change for a successful supply chain transformation
- Identify risks and opportunities, and select the appropriate frameworks and models to effect transformation
- Apply systems thinking to develop, analyze, verify and validate concept alternatives for transformation
- Manage and align processes and capabilities with strategic transformation goals
- Manage skills, roles, responsibilities and infrastructure needed for a supply chain transformation
- Identify tools and technologies to enable effective supply chain transformation
- Identify and implement strategies for reinforcing and replicating improvements

20%

APICS certified individuals earn **20%** more than those without a certification.

What will I study?

The CTSC learning system is divided into four modules. You'll learn skills in systems thinking; supply chain architecting; leadership; risk and resilience management; change management and digital transformation.

The knowledge you gain through these materials will help you drive organizational change, maximize overall efficiency, improve the bottom line and help you take on the challenges of an end-to-end transformation initiative.

Book 1 of 1

Module 1: Supply Chain Transformation Overview

Module 2: Preparing for Supply Chain Transformation

Module 3: Executing Supply Chain Transformation

Module 4: Review of Supply Chain Transformation

Am I eligible?

There is no eligibility requirement to purchase and take the CTSC exam.

How will I study?

The APICS CTSC Learning System is a comprehensive certification preparation program that combines digital and printed materials with interactive study tools to help you prepare for the exam.

Choose from three flexible study options that fit your schedule and learning style: self-study, instructor-led, instructor-supported or corporate/group training. Each option is based around the learning system.

The CTSC Learning System incorporates three components to help you apply the concepts and test your understanding and retention of the information.

1. ASSESS

- Complete the pre-test to gain baseline knowledge and identify areas for improvement.
- Based on your pre-test scores, the online learning system will recommend the most efficient study plan.

2. STUDY

- Utilize convenient study options: read printed books or access online study materials via any mobile device, tablet, or computer - 24/7.
- Benefit from microlearning features in the online learning system; focus on smaller content segments for more efficient use of available time.
- Take the chapter quizzes to test knowledge retention, receive feedback and answer rationales and references to the relevant sections in the reading materials.
- Complete the learning activities, including new in-depth videos and real-life case studies to help reinforce the concepts presented.
- Study flashcards to reinforce your memory of key terms, concepts and definitions.

3. PRACTICE

- Take the practice exam to gain experience with the format that emulates the real-life exam experience.
- Access study tools, test-taking tips and additional information about the certification exam.
- Access the "My Progress" section to track your quiz scores and learning gain.

How do I test?

The exam consists of 150 questions answered in 3.5 hours. Receive your results immediately after completing the exam. With a passing score, you can start using your new CTSC credential immediately!

Review the **APICS Exam Handbook** for full details on the exam process and procedures prior to taking the exam.

How much will it cost?

CTSC Bundle

(Includes CTSC Learning System, Exam and a 2nd Chance Exam)

ASCM Members with Certification Upgrade — \$3,175

Standard Member and Non-member Bundle — \$2,275
