SCOR DS® (Digital Standard) Course Outline (Ver. 14.0)

SCOR DS® (Digital Standard) Professional training provides an in-depth understanding of the latest version of the Supply Chain Operations Reference model (ver.14). This training introduces attendees to the full scope and contents of the APICS SCOR DS® framework. Attendees will learn the major process components of the framework (*Plan, Transform, Source, Order, Fulfill, Return, Orchestrate*) from a supply chain perspective and how to use the framework in a project. Below a full outline of the SCOR DS® framework and problem solving with **SCOR DS® two-days APICS® official course**, **plus one day focused on "how to" use the _Transformation Learning Program (TLP_) and related tools in a project implementation**:

Day 1 – Framework, history and architecture

- o Introduction to the SCOR DS® Framework: history and changes in SCOR DS® from the previous SCOR® version
- o Using the SCOR DS® web portal (https://scor.ascm.org)
- o SCOR DS® *Performance*: Definition
- o SCOR DS® *Performance*: Attributes, Metrics, Levels

o SCOR DS® *Processes*: Definition, processes and supply chain, levels
o SCOR DS® *Practices*: Definition
o SCOR DS® *People*: Definition
o SCOR DS®: Special Applications

Days 2 SCOR DS® Transformation Learning Program racetrack: concepts and practices

o **SCOR DS® Transformation Learning Program phases: Introduction**:

o **SCOR DS® TLP phase 1 - *Engage***
   o Motivations for undertaking a SCOR DS® improvement program
   o SCOR DS® staffing and *TLP program*

o **SCOR DS® TLP phase 2 - *Define***
   o Segmenting the *Supply Chain*
   o *Business Context Summary*
   o *TLP Charter* and other tools to formalize the improvement project

o **SCOR DS® TLP phase 3 - *Analyze***
   o SCOR Level 1 and Level 2 Metrics Selection
   o Business process analysis; form *as is* to *to be* status*;*
   o Introduction to business process analysis and simulation tools;
   o Staple yourself to an order
   o Benchmarking
   o Creating a SCORcard
   o Level 3 and level 4 process representation

o **SCOR DS® TLP phase 4- *Plan***
   o Create Preliminary Project Portfolio
   o Prioritization and Sequencing of Projects: criterias

o **SCOR DS® TLP phase 5 – *Launch***
   o Project documentation and final assessment
   o Readiness check
   o Project Test, Pilot, and Rollout

Days 3 SCOR DS ® and Transformation Learning Program tools
   o TLP and tools in a SCOR DS® project implementation: from *engage* to *launch (case study)*
   o SCOR DS® "light" approach by Consept in SME (small&medium enteprises)
