## Session 1—Master Planning of Resources

<b>The Manufacturing Planning and Control System.....</b>	<b>1-9</b>
Manufacturing and Service Industry Objectives.....	1-9
Role of Manufacturing Planning and Control.....	1-11
Manufacturing Planning Hierarchy.....	1-15
Role of Planning Software in MPC.....	1-21
Factors Affecting MPR System Design.....	1-23
<b>Master Planning of Resources.....</b>	<b>1-29</b>
Direction Setting: Strategic and Business Planning.....	1-29
Demand Management.....	1-33
Sales and Operations Planning.....	1-41
Master Scheduling.....	1-45
Distribution Planning.....	1-47

## Session 2—Forecasting Demand

<b>Demand Forecasting Concepts.....</b>	<b>2-7</b>
Forecasting Framework.....	2-7
Managing the Forecast.....	2-17
<b>Forecasting Techniques.....</b>	<b>2-29</b>
Factors Affecting the Forecast.....	2-29
Qualitative Forecasting Techniques.....	2-39
Quantitative Intrinsic Techniques.....	2-45
Quantitative Causal Techniques.....	2-59
Collaborative Planning, Forecasting, and Replenishment.....	2-63

## Session 3—Demand Management and Customer Service

<b>Evaluating Forecast Performance</b> .....	<b>3-7</b>
Guidelines for Evaluating Forecasts.....	3-7
Outcomes of Forecast Evaluation.....	3-9
Determining Forecast Error.....	3-9
Standard Deviation.....	3-21
<b>Customer Relationship and Order Management</b> .....	<b>3-25</b>
Customer Relationship Management (CRM).....	3-25
Customer Order Management.....	3-33
Effective Customer and Internal Communication.....	3-39
Order Delivery Performance Measurement.....	3-41
<b>Customer Service and Safety Stock</b> .....	<b>3-49</b>
Purpose of Safety Stock.....	3-49
Customer Service Levels.....	3-51
Calculation of Safety Stock.....	3-53
Customer Service Policy and Performance Targets.....	3-61

## Session 4—Distribution Planning

<b>Distribution Network Planning</b> .....	<b>4-7</b>
Distribution Channel Design Considerations.....	4-7
Network Configuration.....	4-17
Transportation and Distribution Center Site Decisions.....	4-29
<b>Distribution Replenishment Planning</b> .....	<b>4-37</b>
Product Forecasting.....	4-37
Replenishment Planning Approaches.....	4-43
Replenishment Planning Linkages to S&OP and Master Scheduling.....	4-61
<b>Measuring Performance</b> .....	<b>4-69</b>
Distribution System Performance Measures.....	4-71

## Session 5—Sales and Operations Planning

<b>S&amp;OP Introduction.....</b>	<b>5-7</b>
Major Attributes.....	5-7
S&OP Relationships.....	5-9
S&OP Fundamentals.....	5-11
<b>Management Considerations.....</b>	<b>5-13</b>
Guiding the Business.....	5-13
Roles and Responsibilities.....	5-19
Key Planning Factors.....	5-21
<b>The S&amp;OP Process.....</b>	<b>5-25</b>
S&OP Process Outcomes.....	5-25
Monthly Executive S&OP Process Steps.....	5-27
<b>Developing and Validating the Production Plan.....</b>	<b>5-31</b>
Production Planning Methods.....	5-31
Make-to-Stock S&OP Plan.....	5-33
Developing a Make-to-Stock S&OP Grid.....	5-35
Financial Evaluation of Level and Chase.....	5-41
Developing a Make-to-Order S&OP Grid.....	5-47
Resource Planning.....	5-57

## Session 6—S&OP and Master Scheduling

<b>Introduction.....</b>	<b>6-7</b>
Transition from Sales and Operations Planning.....	6-7
Master Scheduling Objectives.....	6-7
Role in Manufacturing Planning and Control.....	6-9
Maintaining the Master Schedule.....	6-11
<b>Major Influences on Master Scheduling.....</b>	<b>6-13</b>
Business Environment.....	6-13
<b>Master Scheduling Process.....</b>	<b>6-19</b>
Introduction.....	6-19
Maintaining the Stability of MPS.....	6-39

## Session 7—Managing the Master Schedule

<b>Management Considerations.....</b>	<b>7-7</b>
The Balancing Act.....	7-7
The Role of the Master Scheduler.....	7-9
The Role of the Senior Executive.....	7-11
Planning and Coordinating Changes.....	7-13
Maintaining the Integrity of the Master Schedule.....	7-27
<b>Assemble-to-Order Master Scheduling.....</b>	<b>7-31</b>
Bills of Material.....	7-31
Planning Bills of Material.....	7-33
Two-Level Master Scheduling Demonstration and Problems.....	7-43
<b>Reviewing Capacity Requirements.....</b>	<b>7-55</b>
Rough-Cut Capacity planning.....	7-55
RCCP Process.....	7-57
Possible Solutions.....	7-63
Overload and Underload.....	7-65
Revised MPS and RCCP Report.....	7-67
<b>Advanced Planning and Scheduling (APS).....</b>	<b>7-69</b>
Approach to Capacity Planning.....	7-69
APS Process.....	7-71
<b>Measuring Master Scheduling Performance.....</b>	<b>7-73</b>
Policies and Methods.....	7-73
Problem Indicators.....	7-75
Performance Measures.....	7-77

## Session 8—Case Studies

<b>Case Studies</b> .....	<b>8-7</b>
Production Planning Methods.....	8-7
Master Scheduling in a Make-to-Order Environment.....	8-13
Master Scheduling in a Make-to-Stock Environment.....	8-19

## Appendix

<b>Progress Check Answer Sheet</b> .....	<b>A-1</b>
<b>Bibliography</b> .....	<b>A-2</b>
<b>Course Evaluation</b> .....	<b>A-3</b>

## Index

<b>Index</b> .....	<b>Index 1</b>
